**TURTLE NESTING SEASON IS HERE!** The months of May thru October are the prime months for sea turtles to nest along our beaches. KSC and CCAFS have some of the only remaining pristine beaches along the East Coast of Florida. Sea turtles use these beaches in high numbers for nesting. All exterior lighting at KSC and CCAFS, not just that which directly hits the beaches, can be a distraction to these turtles causing disorientation and nest abandonment. Please, take extra measures to ensure all non-essential exterior lighting is turned off. The KSC Exterior Lighting Guidelines can be reviewed on the Environmental Program Branch website at <http://environmental.ksc.nasa.gov/natural/lighting.htm>. If you see any lights that you feel need to be turned off or have any questions, please contact John Shaffer, NASA EPB, at 867-8448. (TA-C3)

**NUTRITION TIP OF THE WEEK FROM THE KSC FITNESS CENTERS: Nutrient Claims: What Do They Mean??** There are so many claims on food labels these days—"low fat," "light," "cholesterol free," etc. It can be very confusing to know exactly what the claims mean. And are they even 100% accurate? The good news is that each claim you see on food labels has a definition that is established and regulated by the Food and Drug Administration. Here is a list of some of the common terms and their definition...

**reduced sodium, reduced fat:** at least 25% lower in fat/sodium than the comparable product

**light or lite:**

Regarding fat: at least 50% less fat than comparable product

Regarding calories: at least one-third fewer calories & must contain less than 50% of calories from fat

**fat-free, cholesterol free:** Contains no or inconsequential amounts of fat, saturated fat, or cholesterol

See next week's nutrition tip for more nutrient claims and their definition... Source: [www.mayoclinic.com](http://www.mayoclinic.com).

The OCI is an independent entity and reports directly to Roberta Gross, the NASA IG, in Washington D.C. Although emphasis is placed on major procurement fraud, (particularly allegations of defective/substandard parts, mischarging, kickbacks, bid rigging, and research fraud), investigations are also conducted of theft, conflict of interest, environmental and hazardous waste violations, health care fraud, and computer related crimes. OCI also provides fraud briefings for Government and contractor employees that are designed to highlight potential risks concerning fraud and related matters. Suspected violations can be reported by calling 867-4714 locally, the toll free Hotline at 1-800-424-9183, or by writing NASA Inspector General, P. O.
